UNITED INTERNATIONAL UNIVERSITY

School of Business and Economics

BSECO Program

Course Outline: Economics

Course Information	
School	School of Business and Economics (SOBE)
Department	Economics
Programme	BSCSE
Name of Course	Economics
Course Code	ECO 4101
Trimester and Year	Spring 2026
Credit Hours	3
Section	Section D, E, F
Class Hours	Section D: SAT & TUES- 8.30 AM- .9.50 AM Section E: SUN & WED- 9.51 AM-11.10 AM Section F: SUN & WED- 11.11 AM-12.30 PM
Class Location	Section D: Room: 730 Section E: Room: 409 Section F: Room: 429
Counselling Hour	Saturday & Tuesday- 9:51 AM-12:30 PM Sunday & Wednesday 8:30 AM -9:50 AM, 12:30 PM-1.50 PM
Text Book	**Text Book:** Mankiw, N. G. (2020). Principles of Economics. Engage Learning. Latest Edition **Reference Books:** 1. Microeconomics by Roger Arnold (Latest Edition) 2. Economics, Paul A. Samuelson and William D. Nordhaus, McGraw-Hill, Eighteen Edition (international)
Course Rationale	This course will cover the different grounds of Economics. It will map out the study of how societies use scarce resources to produce valuable commodities and distribute them among different people, the changes to reflect the shifting trends in economic affairs, in the environment, in the world economy and in the societyat large. Introduce Microeconomics, the branch of economics which analyzes the behavior of individual households, firms and markets and Macroeconomics, another essential part of the subject that examines theoverall performance of the economy.
Course Objective	To provide the students with an introduction to the basic microeconomic and macroeconomic principles, understand basic concepts of economics and apply those concepts of economics to real life engineering markets. Throughout the course a focus will be on critical thinking to analyze microeconomic and macroeconomic problems and solving those problems.

Course Learning Outcomes (CLOs)	With successful completion of this course, the students would be in a position to: **CLO 1**: Apply basic concepts of Micro, Macro and Development Economics in real engineering systems. **CLO 2**: Develop strategies to determine the best cost, price- output combination. **CLO 3**: Address the nature of market strategies accordingly. (For short run andlong run) **CLO 4**: Calculating National income and economic growth for a country. **CLO 5:** Address the macroeconomic problems and seek solution accordingly by policy making. (For short run andlong run).
Teaching Methods	Lectures, Books, PowerPoint.

Mapping CLOs with PLOs

CLO/PLO	PLO1 **Engineering knowledge**	PLO2 **Problem analysis**	PLO11 **Project Management and Finance**	PLO12 **Life Long Learning**
CLO1	√			√
CLO2		√	√	
CLO3		√	√	
CLO4		√		√
CLO5		√		√

Assessment Policy

Assessment Strategy	**Details**	**Marks**
Formative or Continuous Assessment	Attendance and class participation	5
	Quizzes or class tests	20
	Individual and group assignments (may include Project, Report, case studies) and presentation	5
Summative Assessment	Mid-term Examination	30
	Final Examination	40
Total		**100**

Grading Policy

Letter Grade	**Marks %**	**Grade Point**	**Letter Grade**	**Marks%**	**Grade Point**
A (Plain)	90-100	4.00	C+ (Plus)	70-73	2.33
A- (Minus)	86-89	3.67	C (Plain)	66-69	2.00
B+ (Plus)	82-85	3.33	C- (Minus)	62-65	1.67
B (Plain)	78-81	3.00	D+ (Plus)	58-61	1.33
B- (Minus)	74-77	2.67	D (Plain)	55-57	1.00
			F (Fail)	<55	0.00

Additional Course Policy	**1**. Class Attendance and Participation: Class attendance is mandatory (at 80% of classes) to qualify for grading as per university policy. Your in-time presence will also be considered as positive class participation. **2.** 3 absent classes will be considered but after that every missed class will result in a 0.25 marks deduction. **3.** Failure to appear at the day of Presentation, Assignments, Term Paper on the due date will result in 50% deduction from the possible score. There is NO provision for make-up of missed classes and assignments. **4.** Counseling: You are expected to follow the counseling time-table as set out in this course.
Content of the course	**Introduction**: Scarcity, Efficiency, Basic concepts of microeconomics, Ten Principles of Economics **Thinking Like an Economist:** The Role of Assumptions, Economic Models, Our First Model: The Production Possibilities Frontier, Microeconomics and Macroeconomics, The Economist as Policy Adviser, Positive versus Normative Analysis **The market forces of demand and supply:** Markets and Competition, What Is a Market? What Is Competition? Demand, the Demand Curve: The Relationship between Price and Quantity Demanded, Market Demand versus Individual Demand, Shifts in the Demand Curve **Elasticity and its Application:** The Price Elasticity of Demand and Its Determinants, Computing the Price Elasticity of Demand, The Midpoint Method: A Better Way to Calculate, Percentage Changes and Elasticities, The Variety of Demand Curves, Other Demand Elasticities **Supply, Demand, and Government Policies:** How Price Ceilings Affect Market Outcomes, How Price Floors Affect Market Outcomes, How PriceCeilings Affect Market Outcomes, **The cost of Production:** Total Revenue, Total Cost, and Profit, Costs as Opportunity Costs, The Cost of Capital as an Opportunity Cost, Economic Profit versus Accounting Profit, Production and Costs, The Production Function, From the Production Function to the Total-Cost Curve. The Various Measures of Cost, Fixed and Variable Costs, Average and Marginal Cost, Cost Curves and Their Shapes, Typical Cost Curves, Costs in the Short Run and in the Long Run, The Relationship between Short-Run and Long-Run, Average Total Cost, Economies and Diseconomies of Scale. **Firms in competitive market:** What Is a Competitive Market? The Meaning of Competition, The Revenue of a Competitive Firm, Profit Maximization and the Competitive Firm's Supply Curve, A Simple Example of Profit Maximization, The Marginal-Cost Curve and the Firm's Supply Decision, The Firm's Short-Run

	Decision to Shut Down, The Firm's Long-Run Decision to Exit or Enter a Market. The Short Run: Market Supply with a Fixed Number of Firms, The Long Run: Market Supply with Entry and Exit **Monopoly:** Monopoly Resources, Government-Created, Natural Monopolies How Monopolies Make Production and Pricing Decisions, Monopoly versus Competition, A Monopoly's Revenue, Profit Maximization, Monopoly's Profit, The Welfare Cost of Monopolies, The Deadweight Loss, The Monopoly's Profit: A Social Cost? **Monopolistic competition & Oligopoly:** Between Monopoly and Perfect Competition, Competition with Differentiated Products, the Monopolistically Competitive Firm in the Short Run, The Long-Run Equilibrium, Monopolistic versus Perfect Competition Monopolistic Competition and the Welfare of Society , Basic concepts of Oligopoly , characteristics of oligopoly. **Basic concepts of Macroeconomics:** Objectives and instruments of Macroeconomics, Tools of Macroeconomics **Measuring a Nations Income:** Circular Flow Model, the measurement of Gross Domestic Product, Components of GDP, Real GDP vs Nominal GDP, Is GDP a good measure of economic wellbeing, Calculation of GNP, NNP, PI and DPI. **Measuring the cost of living:** The Consumer Price Index, How CPI is calculated, GDP Deflator vs CPI, Correcting economic variables for the effect of inflation, Nominal interest rate, real interest rate and Fishereffect. **The Monetary System:** The meaning of Money, Three functions of Money, Characteristic of Money, Kinds of Money, Banks and Money Supply. Fiscal and monetary policy, Inflation

Mapping Course Learning Outcomes (CLOs) with the Teaching-Learning& Assessment Strategy

Week	Topic	Teaching-Learning Strategies	Assessment Strategies	Corresponding CLO
1-2	Ten principles of Economics	Lecture, Discussion, Group study for problem analysis	Class test (Short Q and MCQ) or Quiz, assignment	CLO1,
2-3	Production, cost and related concepts	Lecture, Discussion, Group study for problem analysis	Class test (Short Q and MCQ) or Quiz, assignment	CLO1
4	The market forces of demand, supply and equilibrium	Lecture, discussion, Question-Answer session	Small case study, understanding sharing, and oral presentation	CLO 2
5-6	Elasticity of demand and its Application	lecture discussion with multi-media, panel discussion	Class test (Short Q and MCQ) or Quiz, Home assignment	CLO 2
6	Firms in a competitive market, Monopoly, Monopolistic competition & Oligopoly. Profit and loss calculation.	Feedback, lecture discussion with multi-media and also using whiteboard to critically explain the graphs and figures	Class test (Short Q and MCQ) or Quiz, Home assignment	CLO 3
7-8	Macroeconomics: National Income, GNP, Gross Domestic Product(GDP), Nominal and Real GDP, AD, AS	Lecture with multi-media, Group discussion for problem analysis	Class test (Short Q and MCQ) or Quiz, Home assignment	CLO 4
9-10	Functions of Money , Inflation and Unemployment: Definition, Impact, Causes & Relationship	Lecture with multi-media, Group discussion for problem analysis	Class test (Short Q and MCQ) or Quiz, Home assignment	CLO 4
11-12	Macroeconomic goals and policy options (Fiscal Policy & Monetary Policy), Money: Functions of Money, Value of Money and Policy options	Feedback, lecture discussion with multi-media, group discussion	Class Tests, Presentation	CLO5

Instructor's Information

Name	Tasneem Jahan Tumpa Lecturer, Department of Economics (SOBE) **United** International **University**
